August 2019 - May 2021

My parents moved me to this school to achieve a higher education.

PROJECTS

Capstone

For my capstone project a friend and I created this trail walk bingo for the city of Canon, our devotion to this project was time worthy to make Canon a better place. This was for families and friends to reach outside their bubbles and go outside. It encouraged adults to stay fit while their kids enjoyed the outdoors. If you look on the Rec District website you will see that it was created by Trevor and Jordan. We chose to stand in front of the city council to convince them that this was the best way to convince families to come together. Jordan and I also spent a lot of time studying and walking the trails to know what was on their trails so the most competitive in the families would push other people to their competitive egos to win. But really pushing everyone to push harder, ultimately making everyone work and think more aggressively.
