To: Chief Laws
From: Commander Robbins
Reference: [redacted] Complaint
Date: 10-05-22

On 09-07-22, I received a complaint reference inmate [redacted]. In summary [redacted] made three separate allegations.

Allegation #1: An inmate being assaulted by deputies on 03-05-22.
Allegation #2: [redacted] being threatened by Sgt. Europe on 05-15-22.
Allegation #3: Excessive force causing injury to [redacted] wrists on 07-26-22.

Reference the 03-05-22 incident I was able to find a [redacted] was assigned to administrative segregation for his behavior in assaulting staff members multiple times. On 03-06-22, we received a grievance where [redacted] who spoke of the abuse and harassment to inmate [redacted]. For purposes of this investigation we will not disclose [redacted] reasoning for being in Ad Seg nor his personal information. There is documentation of [redacted] continuous assaultive behavior to deputies and a note of his continuous refusal to lock down daily during the week in question as well as coming at [redacted], which was documented. However, there is no documentation of anything happening on this date, nor any complaints from [redacted] It is also noteworthy that on 03-10-22 in the Keefe system [redacted] advises that he had been hallucinating about this alleged abuse incident and was hearing voices.

Based off this information and [redacted] own admission that he hallucinated the entire incident, I find this allegation to be unfounded.

Reference to [redacted] allegation that on 05-15-22, Sgt. Europe threatened him saying, "That's a good way for me to fuck you up." On 07-17-22, Sgt. Europe responded on Keefe and stated that he had no recollection of making that statement. [redacted] continued to send messages through the Keefe system stating he was a dog killer and out of control. Upon reviewing [redacted] file, I find repeated offenses where [redacted] threatens or actually does throw

urine and feces out of his door and then says the officers are being unprofessional or mean to him during their response to his behavior.

Based off Sgt. Europe's response and [redacted] documented history I find this allegation to be unfounded.

Reference to [redacted] allegation of excessive force on 07-26-22 I was unable to find documentation reference the incident in question. [redacted] does allege that he was taken to the quiet room. It does occur often, to ensure safety and security, officers will place someone who is out of control into handcuffs. Depending on the actions of the person in custody, in this case [redacted] abrasions can occur to the wrist during an altercation or transport to a location, as the handcuffs are made of metal.

As [redacted] does not describe any overt action taken by the officers at that time other than he was left with abrasions to the skin, I find this allegation to be unfounded.

This concludes my findings of the complaint and I recommend this matter be closed.
