Re: CCJRA Request dated April 7, 2026

Andrew Fraieli,

This letter responds to your Colorado Criminal Justice Records Act (CCJRA) request dated April 7, 2026 in which you requested:

*"Good morning, Pursuant to the Colorado Criminal Justice Records Act § 24-72-301 et seq., I request that you make available for inspection and copying the following public records: - The internal affairs investigation file relevant to the resignation while under investigation of Colton McKee*

*If you are not the custodian of records for this request, please forward this letter to the appropriate person or let me know which person(s) has custody of these records. Please set a date and hour, within three working days following receipt of this letter, at which time the records will be made available. If access to these records will take longer, please cite the extenuating circumstances and let me know when I should expect copies or the ability to inspect the requested records. I ask that records available in their native format and be transmitted electronically by email to me at this email address.*

*If you deny any portion, or all, of this request, please provide me with a written explanation of the reason(s) for your denial, including a citation to each specific statutory exemption you feel justifies the refusal to release the information and notify me of the appeal procedures available to me under the law. If you conclude that portions of the records that I request are exempt from disclosure, please release the remainder of such records for inspection and copying, redacting only the portion or portions that you claim are exempt. Please contact me with any questions about my request by email or at 401-864-8019. Your records request form is attached. Thank you for your time."*

I am the custodian of records for the Professional Standards Unit (PSU), which includes formal Internal Affairs investigations. In review of the internal affairs investigation relevant to the resignation while under investigation of former officer Colton McKee, the following is a summary of that investigation and conclusion.

On November 7, 2025, while on duty and in uniform, McKee conducted an unsolicited, officer-initiated visit to the private residence of an elderly at-risk community member. He entered the home without notifying dispatch and did not activate his body-worn camera during the contact. The complainant later reported that aspects of McKee's behavior during this visit made her uncomfortable and caused her to question his intentions. She contacted neighbors and family immediately afterward and subsequently reported feeling fear and anxiety at the sight of police vehicles due to concern it might be him.

The investigation determined that this was not an isolated incident. Over several months, McKee made multiple similar visits to the same residence while on duty, again without notifying dispatch and without activating his body-worn camera. His explanations for these repeated contacts were inconsistent, lacked verification, and did not support his claim that the visits were part of a broader community-policing effort.

McKee's stated reasons for the visits, his decision not to activate his BWC, and his interpretations of the complainant's behavior were inconsistent with the evidence.

Had the investigation resulted in sustained findings, McKee would likely have been subjected to termination of employment. However, since McKee resigned while under investigation, the PSI was administratively closed with no finding.

Sincerely,

*E. Lewis*
