

## Incident Summary:

the 1000 bang. There was no physical altercation or arrests. They did not have any charges last night. I told the officer to please send me a copy of the report, as I believed that the gun that was discharged may have been his or her duty weapon. I told the officer to make sure and handle it as any other case, and let me know what they decided to do if they would. I asked the officer and he told me that he believed the story they were told was untruthful, but only they only had the physical evidence of the glass break and the casing at this time. [REDACTED] served a search warrant on the residence on 08-20-14 retrieving two CSP issued 40 cal. handguns issued to both troopers.
